

North Star Foundation Cyprus

Programme Explainer

April 2024

The North Star Foundation programme empowers publishers to identify and realise a key strategic ambition for their digital news business, guided by the **North Star methodology** that has been used by the FT to accelerate its own digital transformation

The North Star Foundation will provide **tailored support and consultation** for South European publishers, enabling them **to accelerate their growth and develop innovative insights** while fostering collaboration and a culture of excellence.

The North Star Foundation programme gives publisher clarity on their ambitions for the future

Objective

The North Star Foundation programme is a practical 4-day, hands-on programme that enables a cohort of publishers to focus on a key strategic ambition for their digital news business, be that in terms of strengthening digital journalism, developing audiences, or growing a reader revenue model. Over the course of the programme publishers will develop an action plan and detailed roadmap to take their digital journey to the next level and realise their goal, based on the FT's proprietary North Star tool. Each publisher will leave with:

- ★ An action plan to realise a key business ambition
- ★ Key next steps with milestones, outcomes & owners
- ★ Practical experience on how to apply the North Star tool
- ★ Exclusive in-depth insights and feedback from FT experts across data, editorial and marketing

Expert delivery

Participants are guided through each step of the North Star framework, with hands-on workshops complimented by inspiration, feedback sessions and dedicated 1:1 support and learn from both shared experiences of other participants and Google and FT Strategies expertise.

Strong historic results

We have worked with 150+ publishers across twelve previous editions. The programme has received consistently excellent quantitative and qualitative feedback from previous participants, achieving 4.6 CSAT score (customer satisfaction score) on average through 2023, and publishers have seen strong improvement in key digital business metrics.

Previous participants

"The training was a great success and I would like to thank the FT team for providing us with excellent training and knowledge. I learnt a lot during the five days."

Application criteria

HQ in SE and an established digital base

The programme is designed for publishers based in SE with an existing base of digital readers, typically >250,000 monthly unique viewers.

Publishers must also have sufficient data on their performance to date in the area they wish to focus on whilst learning about the North Star methodology.

Growth potential

Senior leadership must be aligned with the particular digital news publishing goal that their business brings to the programme and be willing to engage with the North Star methodology.

You should also be able to demonstrate that you need help to get to the next level - the programme is designed to make a difference to your business that would not be achieved otherwise.

Team commitment

North Star Foundation is a 4-day hands-on programme. Each day will require at least 7 hours of dedicated time.

You should assign 3-5 individuals to the team, drawn from a wide range of departments, but with Editorial and Commercial departments as a minimum. You will also need a board level sponsor to attend at least the core elements of the programme.

About the North Star Foundation programme

Google News Initiative Digital Growth Programme

The **Digital Growth Programme** is an initiative within GNI (Google News Initiative), to help publishers grow their digital business online. North Star Foundation is just one of the many programmes it offers, along with other workshops and tools.

Google teams will:

- ★ Manage success of overall programme, providing advice and expertise as needed
- ★ Connect participants to the GNI network
- ★ Leverage the News Consumer Insights tool for ongoing analysis of impact on your business

FT STRATEGIES

FT Strategies is the growth subscriptions consultancy from the Financial Times. FT Strategies' deep expertise enables its clients to future-proof their business, empower their teams, and fulfil their goals with our proven data, digital and change consulting expertise

FT Strategies teams will:

- ★ Lead execution of programme including introducing FT experts and their insights to cohort members
- ★ Lead the development of participants' North Star framework, using its experience of working with 700+ other publishers
- ★ Offer optional 1-to-1 strategy 'surgery' sessions to each participant during the programme
